

## Certificate of RoHS 3 Compliance

### RoHS -- Restriction of Hazardous Substances

Directive 2002/95/EC (RoHS), Directive 2011/65/EU (RoHS II), Delegated Directive 2015/863/EU (RoHS III)

#### Definition and History of RoHS

**RoHS** is a directive initially adopted by the European Union (EU) in February 2003, taking effect in 2006. This directive restricts the use of certain hazardous materials in the manufacture of various types of electronic and electrical equipment (EEE). RoHS was recast to better capture technical and scientific progress concerning the use of hazardous substances in EEE (Electrical and Electronic Equipment) in 2011 as **Directive 2011/65/EU** and is referred to as **RoHS 2**. It entered into force on July 21, 2011. **Delegated Directive 2015/863/EU** amended Annex II of Directive 2011/65/EU (RoHS 2) adding Bis(2-ethylhexyl) phthalate (DEHP), Butyl benzyl phthalate (BBP), Dibutyl phthalate (DBP) and Diisobutyl phthalate (DIBP) as substances of very high concern (SVHC) and is referred to as **RoHS 3**. Draft Delegated Directives for RoHS Exemptions to Annex III items 6a, 6b, 6c were published on September 19, 2017.

#### RoHS Regulation

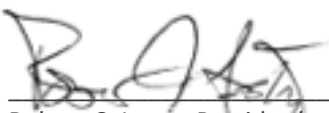

After July 4, 2015, electrical and electronic equipment sold in European Union Council Countries, cannot contain Substances of Very High Concern (SVHC): Lead\*, Mercury, Cadmium, Hexavalent chromium, Polybrominated biphenyls (PBB), Polybrominated diphenyl ethers (PBDE), Bis(2-ethylhexyl) phthalate (DEHP), Dibutyl phthalate (DBP), Butyl benzyl phthalate (BBP), or Diisobutyl phthalate (DIBP). *(\*Exceptions for Lead are detailed in Annex III to Directive 2011/65/EU points 6(a), 6(b), 6(c) by the Draft Delegated Directive RoHS Exemption 6a Lead in Steel and Galvanised Steel Extension 19 Sept 2017; Draft Delegated Directive RoHS Exemption 6b Lead in Aluminium Extension 19 Sept 2017; Draft Delegated Directive RoHS Exemption 6c Lead in Copper Alloys Extension 19 Sept 2017.*

#### Horberg's Declaration

We certify that all products manufactured by Horberg are compliant to the RoHS directives captioned above, meet the requirements of the original RoHS, RoHS 2, the Delegated Directive 2015/863/EU (RoHS 3), Draft Delegated Directives for RoHS Exemptions 6a, 6b, 6c, and do not contain any SVHC substances in concentrations exceeding the Maximum Concentration Value (MCV) as set forth in those directives, unless provided for by exceptions listed in Annex III to the European Directive.

Horberg Industries, Inc. does not have design authority and manufactures products strictly to the requirements of drawings and specifications provided by our customers. Where Horberg has the option to select raw materials and/or finishing treatments from customer or OEM provided choices, Horberg will make RoHS compliant selections.
